

skintoskin®

NEW GENERATION WEAR

THE SECOND GENERATION FOR YOUR SKIN

The new brand of **SKINTOSKIN®** underwear, clinically and rigorously tried and tested, acts as a second skin. The Skintoskin range was specially designed for people who suffer with atopic and sensitive skin conditions.

SKINTOSKIN® fibres incorporate brown algae extracts and silver salts (silver nitrate) which work in a perfect symbiosis to offer comfort and protection against skin problems such as itchiness, inflammation and infection.

Sensitive skin is particularly vulnerable to environmental factors such as the sun, the heat, dry wind, as well as to the presence of chemicals contained in hygiene products, and some specific fibres (e.g. Wool & some synthetic fibres).

Some people simply do not feel comfortable while using clothing made of fibres that feel rough when in contact with their skin.

Skintoskin offers highly comfortable and smooth clothing, free from chemicals or allergens, that help maintaining the balance of the skin's flora. Sensitive skin is protected and becomes less vulnerable to itching and discomfort brought up by the inflammation of the skin. The composition of our fabrics can help the treatment of Atopic Dermatitis (more commonly known as Eczema).

SKINTOSKIN® clothing is extremely well tolerated by all sensitive skin types. It protects and helps the skin find its natural balance.

Advances in textile engineering have provided the cloth making industry with fibres that contain soothing and antiseptic properties which are not lost in washing, and help preventing and reducing itchiness and inflammation, often seen in sensitive skin.

- **THIS IS A FABRIC CONTAINING PROPERTIES THAT PROVIDE COMFORT AND PROTECTION AGAINST ITCHINESS, INFLAMMATION AND INFECTIONS.**
- **IT CONTAINS SOOTHING PROPERTIES.**
- **IT ALLOWS THE SKIN TO BREATHE.**
- **IT IS MUCH MORE PLEASANT AND MORE COMFORTABLE TO THE TOUCH THAN OTHER ROUTINELY USED TEXTILES.**
- **IT SUPPRESSES UNPLEASANT ODOURS.**

COMPOSITION

SKINTOSKIN® fibres incorporate **brown algae extracts and silver salts** which work together in a perfect symbiosis to maintain the stability of skin flora, preventing itchiness and irritation, and giving protection and comfort to the user.

Brown algae extracts protect the skin against itchiness. The algae are harvested in the icy waters of the North Sea and organically processed, free from added chemicals, guaranteeing high tolerance levels when it is in contact with the skin.

The **inclusion of silver nitrate** adds truly effective antiseptic properties, drastically reducing the growth of any potentially harmful bacteria on the skin, namely *Staphylococcus aureus* bacteria, which produce toxins and can be found in large quantities on the skin of people suffering from atopic conditions, causing and aggravating skin problems. Bacterial colonies are 100 times higher in normal skin and 1000 times higher in the inflamed skin of people who suffer from atopic conditions.

PRODUCTS

Revolutionary and taken by the scientists as intelligent textiles, **SKINTOSKIN®** offers you various products: **Underpants, Socks, Ankle socks, Long socks, Leggings, Pyjamas, Undershirts** (suitable for men and women of all ages); **Bra** (prevention of dermatitis in the folds between and below the breasts, due to its powerful anti-fungal action on candidatype fungus); **Babygrow, Body, Pants, Newborn kits** (babies 00-24 months)

INSTRUCTIONS FOR USE

To maintain the efficiency and extend the life of your SKINTOSKIN® product, it is essential to carefully follow the washing instructions on the label.

Machine wash. Maximum temperature 30°C. Gentle wash cycle with lower spin.

Do not use bleach.

Maximum ironing temperature is 150°C.

Do not dry clean. Do not clean spots with solvents.

Do not tumble dry.

Do not use fabric softeners.

OTHER INSTRUCTIONS AND INFORMATION

Wash before first use.

Use mild plant or mineral based detergents without fluorescent whitening agents.

Reference guide (composition) for detergents:

- 15% - 30% Zeolites
- 5% - 15% Oxy-whitening agent
- <5% Soap - anionic surfactants

This product contains silver; so it is not advisable for anyone who is allergic to silver.

Keep out of sunlight.

IN ORDER TO REACH THE REFERRED EFFECTS, THE SKINTOSKIN® PRODUCTS SHOULD BE USED CONTINUOUSLY.

WARRANTY

All SKINTOSKIN® products are subject to strict laboratory tests and quality control. In the event of a defective item, the customer should report it immediately to the company and New Textiles will replace the item. For complaint purposes, proof of purchase is required.

The warranty for SKINTOSKIN® does not include inappropriate or abnormal use, or damage owing to failure to comply with instructions for use, as detailed in the leaflet attached to the product.

In case of replacement items, the deadline for dispatch of the item is subject to availability of the product in stock.

For more information, queries or complaints/claims, please contact the Customer Care Service: **+351 253 470 602**, during working hours from Monday to Friday from 10:00 - 19:00, or by email: info@skintoskin.eu.
